## FINANCE AND BUSINESS.

WEEKLY MARKET REVIEW.

TUESDAY EVENING, April 4, 1876. Business and outdoor industry for the past week has been only moderate. The manufacturing enterprises of the city are using economy, and only enough capital is in vested, as a general thing, to insure safety. Rents have been reduced in some instances to nearly fifty per cent., and those who have houses to rent are beginning to see that it is better to have them occupied at low figures than to have them empty. Trade has been rather dull for the past three weeks, but merchants are more hopeful at present and anticipate, with returning sunshine, an active and lively business. The receipts and shipments in railroad traffic show a marked increase over those of last week, as may be seen as follows:

RAILROAD COMMERCE. Receipts for the week anding April 1, 1878: Flour, bbls... Wheat, bu .. Bariey, bu. Rye, bu..... Shipments for the same week: Flour, bbls. Wheat, bu. Corn, bu... Bariey, bu

THE GRAIN MARKET. There is no change in flour at all, the marorder demand. Wheat still inactive and is generally of a poor quality and the stock on pack., per gross, \$17.00; snuff, Garrett's, per gross, \$16.00; snuff, Garrett's, per generally of a poor quality and the stock on pound, 5a6c; saltpetre, per pound 10a25c; turnerting 47c5bc. hand limited. Oats remains unchanged, the demand and offerings being light. Rye quiet and nominal. The movement of corn for the week shows an increase over last week, but prices remain just as stiff and firm. With improved roads in the country heavier receipts are looked for, and a lively movement will be witnessed in many lines which have previously been in dull condition.

DRY GOODS. The trade for the week has been fair and the prospect is good ahead. Dealers look for a heavy trade not many days hence.

GROCERIES. There was a moderately active demand f r staple and fancy goods and the fluctuations which the market has undergone are few. Some of the wholesale houses report business active and good, while others say that it is only moderate. Prices are steady on staple goods. Coffees are strong and firm, but sugars have gone 1/6 higher on all grades. Dried fruits are active and arm at prices quoted. Syrups and molasses are steady and un-

COUNTRY PRODUCE. There is somewhat of a break down in the Eastern butter market, which does not at all help the West. Most of the stock arriving here has no value hardly above lard. However, Budd & Co. receive occasionsly a few kegs of a good article, but the supply is not in any way abundant. Eggs are steady and have not changed during the week. The receipts nave been liberal. Poultry active, chickens commanding from \$3 00@4 0J per dozen, and live turkeys lcc per pound.

PROVISIONS. Operations have been very slight for the past week, and sales, both spot and future,
